Introduction to NFT PUSSIES

NFT Pussies is a platform where world-famous pornstars meet their fans directly. Our solution allows our Pussies club to deliver pleasure straight to their fans via direct messages, 1-on-1 video calls, and NFT tailor-made videos.

Our goal is to give fans a unique and exciting adult entertainment experience. To achieve this purpose we developed a platform powered by the \$PUSSIES tokens that are used as fuel for the NFT Pussies ecosystem.

It is important to note that each pornstar draws hundreds of thousands of fans from their social media to NFT Pussies. This will form a significant part of the NFT Pussies fanbase. Currently, Pussies Club features 10 world-famous pornstars, which have millions of followers combined. Both Web 2.0 and Web 3 fans will need to pay in \$PUSSIES for those unique experiences. With our unique onboarding feature, Web 2.0 fans' payments will be executed automatically in \$PUSSIES on DEX in the background.

It is important to note that this section of our project relates to a very important aspect of our marketing strategy. Through Pussies girls' social media accounts, they announce the NFT Pussies project to their fans. A lot more details will be shared with the fanbase of those girls during the development of the NFT Pussies project. This allows Pussies girls to find VIP fans and give them their love on the NFT Pussies platform.

Would you like to tip your Pussie girl for her performance?
It's easy, just send her \$PUSSIES to her Web3 wallet.

Why will NFT PUSSIES be successful?

Because we cover basic human needs, and in a modern and yet unique way! Imagine the following possibilities:

- For the first time in history, you can actually own a photo or video of your dream porn actress. And you can be the sole owner in the world.
- Everything is powered by a PUSSIES token. Staking, vesting, burn and many more included. Just long term sustainable tokenomics!
- Thanks to blockchain, the ownership of NFT is completely anonymous and secure, but who of us would not like to show off in front of his friends that he actually owns his own video with a well-known porn star. And that it has been created directly for him!
- You can collect limited revealed collectible NFTs that you like or you can invest into Mystery boxes.
- Mystery boxes hide NFTs with various rarity and use-cases as direct messages, 1v1 live video chats and even tailor made NFTs! Yes, you can be the director of NFTs of your favorite porn star!
- Rare NFTs which include use cases will be appreciated in time and their resale on the Market place may generate further capital for the owner.
- Rare NFTs that will be resold on the marketplace will be rechargeable, so you can directly buy NFTs which include the use case you are looking for.
- In addition, the owner receives reflection in the form of PUSSIES tokens from every owned NFT. This will create a passive income for him.
- Marketing is largely done by the actresses themselves as they want to promote NFT PUSSIES on their social networks – great hit in the target group of their followers. Realistically, it means millions of addressed people immediately with the first actresses.
- The success of the PUSSIES will be long-term thanks to a clear long-term vision including a VR Gallery, NFT PUSSIES real life events and we also want to offer our gallery of NFTs in Metaverse worlds.

Pleasure in Mystery Boxes

Fans must find these NFT cards in Mystery Boxes first.
Each girl packaged 500 Mystery Boxes in the first batch.

The Mystery Boxes feature erotic collectible cards with 4K photos and videos, with rarity-based options for unforgettable adult entertainment.

UTILITY #1: Unforgettable Adult Experience

- **Chat with your favorite pornstar. She'll send you around 50 exciting and dirty messages.**
- **1-on-1 video call just you and her! Get ready for 30 minutes of sweet and wild fun!**
- **Imagine your dream girl making a cute porn video just for you. You will be her director.**

A special VIP tier is coming

The NFT Pussies will come up with a top niche utility called "Meet Your Pussie". This special VIP NFT card will allow its holder to claim real-life meetings with his favorite Pussie girl.

UTILITY #1: NFT Recharge

For those who want more from their Pussie, we offer „NFT Recharge“. Cards that have been used for an experience are labeled as „Depleted“ and cannot be used again until „NFT Recharge“. Simply recharge your card on the platform to restore it to its original utility and book the next fun.

UTILITY #2 NFT Merge

The NFT Merge feature will allow fans to merge multiple cards of the same tier to get a rarer tier. This will enable fans to get more pleasure from their collectibles.

Web 3 & Web 2.0 Payment Solutions

Each Mystery Box is available individually or in packs of five, fifteen, or twenty-five. Both Web 2.0 and Web 3 fans who want to buy mystery boxes will need \$PUSSIES.

With our unique onboarding feature, Web 2.0 fans can purchase mystery boxes automatically via background DEX executions. Moreover, a Web 3 wallet will be created for them, accessible via email in case they wish to take advantage of the Marketplace.

Marketplace

Also, there will be a secondary market where girls' NFTs can be purchased and sold. Our NFT Marketplace is an ideal place to do so. After connecting a Web3 wallet, you can easily access it. Fans can find NFT cards and Mystery Boxes here, from those who took them earlier.

Security & Anonymity

SECURITY

Having a sense of detail and being committed to achieving a world-famous porn level, security is key.

The \$PUSSIES token and NFT Pussies platform have been developed by professionals.

NFT ecosystem and \$PUSSIES token is developed by a company with experienced blockchain developers with many successful product launches.

ANONYMITY

Someone may not feel comfortable with showing their bank their history of paying for adult content. Someone doesn't want their partner to see their adult content payments.

For those who don't want or don't know how to hide payments for numbers on the blockchain, we have a solution.

Market Survey

What Makes NFT Pussies Unique?

As the adult entertainment industry continues to grow, the number of personalized adult experiences has also increased. Aiming to meet this demand, we have partnered with world-famous pornstars to launch an online venue that is professionally run and centered around the community.

How Do NFT Pussies Compare With Competition and OnlyFans?

Although there are other services that provide closer access to porn actors, we consider our Pussies Club to be very unique since our girls are world-famous pornstars. The fact that OF girls offer direct messaging, private calls, and even custom performance videos demonstrates that there is a market for these services. The unique aspect of NFT Pussies is that you will only find world-famous pornstars who provide all of these services under the umbrella of NFT Pussies. Moreover, finding this type of entertainment is easier since everything is in one place.

It is important to note that this section of our project relates to a very important aspect of our marketing strategy. Through Pussies girls' social media accounts, they announce the NFT Pussies project to their fans.

A lot more details will be shared with the fanbase of those girls during the development of the NFT Pussies project. This allows Pussies girls to find VIP fans and give them their love on the NFT Pussies platform.

Tokenomics

SEED TOKENS SOLD

PRIVATE TOKENS SOLD

Deflationary Economy

The \$PUSSIES tokenomics was designed to suit our needs as well as be sustainable and deflationary. Thanks to the burning mechanism, its TOTAL SUPPLY decreases with every purchase of Mystery Box and NFT recharge. All of these will lower the \$PUSSIES TOTAL SUPPLY.

Sustainable Economy

Moreover, every DEX swap includes a minor seller slippage fee, which goes as \$USDC (an underlying asset) directly back to DEX. As a result, the price of the \$PUSSIES token will increase. Each credit card purchase results in the purchase of \$PUSSIES through the same DEX pool.

Treasury & Staking

By default, Treasury tokens are unlocked to the burning address. To finance additional marketing, new girls, new influencers, incentives, staking, CEX listings, or LP pairs on DEXs, it is possible to change the wallet where Treasury tokens are being released in accordance with the vesting schedule.
